MEMORANDUM FOR DISTRIBUTION

Subj: IMPROVING THE ACCESSIBILITY OF GOVERNMENT INFORMATION
THROUGH SECTION 508 OF THE REHABILITATION ACT OF 1973, AS
AMENDED (29 U.S.C. § 794D)

Encl: (1) Acting Under Secretary of Defense (AT&L)/DoD CIO Joint Memo of 15 March 12

Enclosure (1) is forwarded for your information and action, as appropriate. This memorandum provides an update on recent activities regarding compliance with the accessibility requirements of Section 508 of the Rehabilitation Act. It notes that in June 2011, the Department issued DoD Manual 8400.01-M, "Procedures for Ensuring the Accessibility of Electronic and Information Technology (E&IT) Procured by DoD Organizations," which provides procedures for implementing Section 508. The manual highlights the General Services Administration's (GSA's) Section 508 website, <http://www.section508.gov>, which offers sample solicitation documents, tools to help build compliant requirements and solicitations, and free online training.

The Federal Acquisition Regulation (FAR) subpart 39.2 implements applicable accessibility standards of Section 508 and 36 CFR part 1194. FAR 39.203 states that unless an exception at 39.204 applies, acquisitions of E&IT supplies and services must meet the accessibility standards at 36 CFR part 1194.

GSA reviews agency E&IT solicitations for compliance, and provides the Office of Management and Budget a quarterly report on the results of its assessments. Department of the Navy (DON) activities should continue to review procurement and Information Technology policies and procedures to confirm Section 508 standards are appropriately considered and clearly stated when preparing requirements and solicitation documents. Unless an exception in FAR 39.204 applies, FAR subpart 39.2 requires acquisitions of E&IT supplies and services to meet the applicable accessibility standards. Further details are provided within the attached document.

Questions regarding this policy should be directed as follows: the DON CIO POC is Ms. Sherrian Finneran, sherrian.finneran@navy.mil, 703-695-1883 and the ASN (RD&A) POC is Ms. Gabrielle Trickett, gabrielle.trickett@navy.mil, 703-614-9641.

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Improving the Accessibility of Government Information through Section 508 of the Rehabilitation Act of 1973, as Amended (29 U.S.C. § 794d)

This memorandum provides an update on recent activities regarding compliance with the requirements of Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794d). On June 3, 2011, the Department of Defense (DoD) published DoD Manual 8400.01-M, "Procedures for Ensuring the Accessibility of Electronic and Information Technology (E&IT) Procured by DoD Organizations," which is available online (<http://www.dtic.mil/whs/directives/corres/pdf/840001m.pdf>). The Manual provides procedures for the implementation of Section 508 and includes a listing of Websites containing laws, regulations, standards, and guidelines for ensuring that E&IT developed, procured, maintained, and used by DoD enables accessibility for persons with disabilities. In addition, the Manual reinforces Section 7.7 of the Defense Acquisition Guidebook, which provides information to Program Managers for acquiring accessible E&IT.

The Manual supports the July 19, 2010, Office of Management and Budget (OMB) memorandum, "Improving the Accessibility of Government Information." The OMB memorandum provides guidance on how to increase awareness, improve agency accountability and accessibility, and enhance the outreach and communication regarding Section 508. It also highlights available tools on the General Services Administration (GSA) Website (<http://www.section508.gov>), such as the "BuyAccessible Wizard," which helps build compliant requirements and solicitations, and the "Quick Links site," which provides sample Section 508 solicitation documents. Acquisition officials should leverage GSA's Section 508 Website for additional assistance with Section 508 compliance and free online training.

The OMB memorandum addresses the GSA effort to review Federal E&IT solicitations, posted on FedBizOpps.gov, for compliance in accordance with the U.S. Access Board Section 508 Standards. The GSA provides OMB quarterly reports containing results of these assessments. When the Department is cited for non-compliant solicitations, our offices will review GSA's findings with the appropriate DoD Component acquisition official, and if the findings prove valid, will provide recommendations on how to improve accessibility performance. In the meantime, DoD Components should continue to review existing procurement and information technology policies and procedures to confirm that the Section 508 standards are appropriately considered and clearly stated when preparing requirements and solicitation documents. Unless an exception in the Federal Acquisition Regulation (FAR) Subpart 39.204 applies, FAR Subpart 39.2 requires that acquisition of E&IT supplies and services must meet the applicable accessibility standards at 36 CFR Part 1194 (Section 508 standards).

Please contact Ms. Susan Pollack, Office of the Under Secretary of Defense for Acquisition, Technology and Logistics (Defense Procurement and Acquisition Policy), at 703-697-8336 or susan.pollack@osd.mil for procurement policy questions regarding DoD Section 508. Questions regarding DoD Section 508 policy, administration, and implementation are to be directed to Ms. Arleen Oliver, Office of the DoD Chief Information Officer, at 571-372-4428 or arleen.oliver@osd.mil.
